Apps for your Home

Savant Pro - This is the app you will primarily be using. It gives you control over different sub-systems in your home. It will control your TVs, Music, Lighting, Security, Surveillance, Garage Overheads and your Front Door Intercom.
https://apps.apple.com/us/app/savant-pro/id1095325838

Snap-Link Mobile - This app will be used for deeper control of your security system. You can go into this app to Arm/Disarm, check zone status, check the event log, and to open/close your garage overhead. This is a stand alone app, your day to day use will be the Savant app but this is a good app to control only your Security System.
https://apps.apple.com/us/app/snaplink-mobile/id378547845

Lutron Connect- This app will be used for your lighting control system. You will use this app when you want to fine-tune the programming on your lighting keypads. This is a stand alone app for your Lutron System. You will primarily be using the Savant app for your day to day use, but this is if you want to dive deeper.
https://apps.apple.com/us/app/lutron-connect-radiora2-hwqs/id1046093347

UniFi Protect - This app will be used for your Surveillance System. You will use this app when you want to dig deeper into surveillance. If you need to review footage, setup notifications, and can see your live views, this will be what you will use. The Savant App will give you live footage of each camera, but not reviewing footage.
https://apps.apple.com/us/app/unifi-protect/id1392492235

Sonos - This app will be used to add music services, manage music services, and more advanced control of your Sonos Music System. The Savant app will control Sonos, but this can be used as a stand alone app for music.
https://apps.apple.com/us/app/sonos-controller/id293523031

Roku - The Roku app is where you can manage your Roku account.
https://apps.apple.com/us/app/roku/id482066631

There will be other apps that may be useful, depending on the services you subscribe to: Such as YouTube TV, Hulu, Netflix, Amazon Prime, Pandora, Tidal, Spotify, Apple Music, Google Music, etc...
