OTA Travel Router Guide:
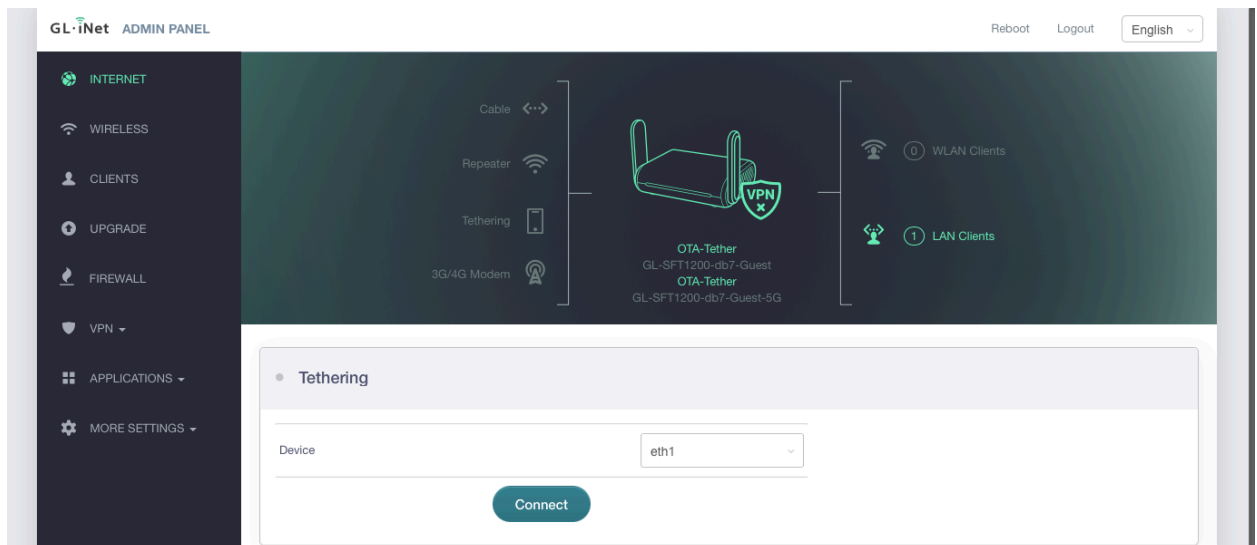

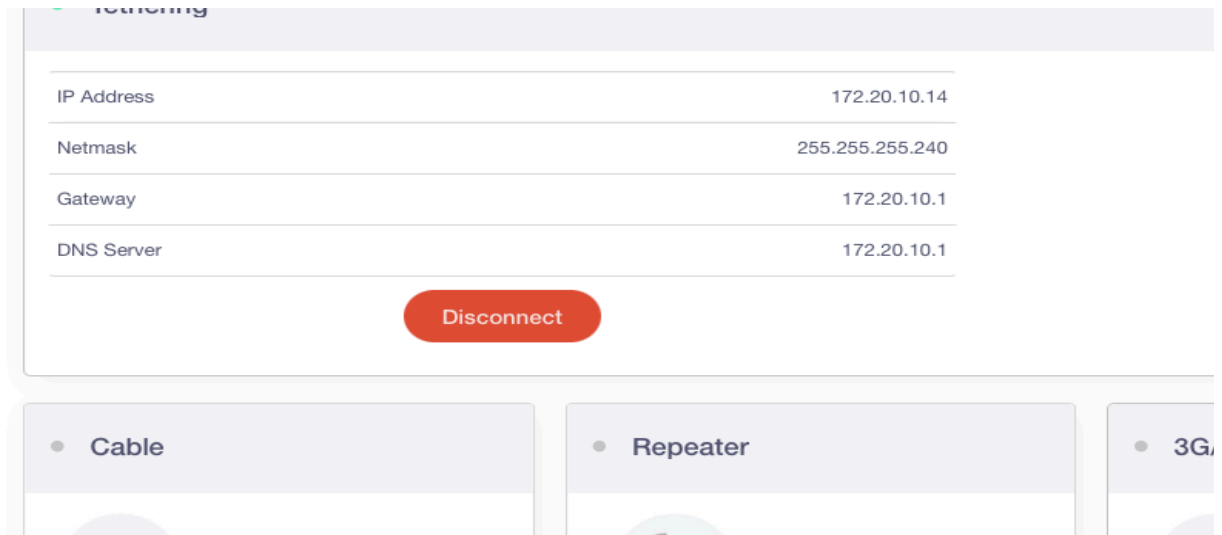

1. Power up the router (takes about 2-3 minutes to fully power on)
2. Connect your phone to the USB port using your iPhone cable
3. On your phone, unlock and when prompted to trust the connect, press "Trust"
4. If this is the first time connecting your phone, you will need to log into the router to enable the tether
5. Connect to either the "OTA-Tether" SSID or connect via hardwire connection
   a. SSID: OTA-Tether
   b. Pass: otatether
6. Open a browser to http://192.168.8.1 and log in
   a. Pass: otatether
7. On the internet page, in the "tether" window, press connect for eth1

8. Once connected, you should see a page similar to this

IP Address	172.20.10.14
Netmask	255.255.255.240
Gateway	172.20.10.1
DNS Server	172.20.10.1

Disconnect

| • Cable | • Repeater | • 3G/ |

9. On your phone, you should see the green tether rings appear
